

Omni Syncaphone

Omni Syncaphone is ideal for Novell® GroupWise® users like **Joe** in the IT department. Joe needs **on-line access to GroupWise on his Java™ phone.**

Meet **Joe** in IT Support. Joe is always on the go! His GroupWise travels with him.

Omni Syncaphone Overview

Omni Syncaphone is ideal for users like **Joe** in the IT department. Joe needs lightweight, on-line access to GroupWise on his Java cell phone. With Syncaphone, he can connect to his GroupWise email, calendar, address books, tasks, appointments and notes. With Syncaphone, Joe's calendar and tasks are always up to date.

No Need to Buy New Expensive Devices

Syncaphone is the only mobile software that is compatible with many of the 579 million Java cell phones in the world. Check our web site for a list of supported devices. Omni is proud to announce support for the Nokia® Communicator 9500 and 9300!

Supported Symbian Devices*

- Nokia Series 80 (Nokia Communicator); Series 60; and Series 40 phones including the Nokia 6100, 6820 and 6610
- Sony Ericsson® P910, P900, P800 Smartphones
- Sony Ericsson T610, 612 and more than 20 Motorola® phones
- Siemens® SK65

* Requires minimum of 200 KB of memory assigned for Java. GroupWise WebAccess configured to Port 80 or 8080 is required.
