

Get Advanced Training on eControl and Riva

The screenshot shows the eControl web interface with the 'MANAGE' tab selected. On the left, there are search parameters for Object Name, First Name, and Last Name. The main area displays a table of users with columns for Name, Path, and System. A context menu is open over the user 'Amarjit Aramideh', showing options like Account Status, Reset Password, Group Membership, Organizational Roles, Password Restrictions, Login Restrictions, and Intruder Lockout. A 'WHEN & WHERE:' box is overlaid on the bottom of the screenshot.

Name	Path	System
Aaron Peters	.AaPeters.Berlin.ACME	omni-tree

WHEN & WHERE: Thursday, June 18th, 13.15 - 16.00
Novell Germany Office, Frankfurt
(Nobel Haus Zeil 79 Frankfurt D-60313 Germany)

Half-day Session for GroupWise Customers and Partners

CIOs, CTOs, Security Managers, Novell Customers and Partners in Germany and the EMEA Region are invited to join Aldo Zaroni, CEO and Managing Director of Omni, to see how Omni eControl and Riva Integration Server for GroupWise are changing the integration and unified management landscape.

13.15 - 14.30 Riva Integration Server—8 Integrations for Novell GroupWise

Learn how the Riva Collaboration Integration platform and Riva Integration Server for GroupWise allow you to manage GroupWise content like NEVER before! See how Riva Integration Server delivers transparent, server-side, strategic integration and interoperability between GroupWise and Microsoft CRM, Microsoft SharePoint, SugarCRM, Salesforce, Oracle CRM, Sage CRM, SalesLogix, NetSuite and others with support for SAP CRM and SuperOffice expected this summer. See how the Riva SQL Connector SDK allows you to integrate your proprietary CRM into GroupWise! "You have to see it to believe it!" www.omni-ts.com/crm-integration/

14.30 - 14.45 Break

14.45 - 16.00 Omni eControl—Unified Management for Microsoft and Novell Networks

eControl Unified Management for eDirectory, GroupWise, Active Directory and Exchange. Learn how eControl Unified Management, Provisioning and User Self-service get you more time to focus on strategic IT priorities like virtualization, upgrade and migration projects. Learn how eControl replaces ConsoleOne, iManager, Microsoft Management Console and Taskpads and allows you to delegate account management and provisioning to non-technical front-line staff. Non-technical staff can now receive authority to reset passwords, release intruder lockout, create accounts, create distribution lists, enable/disable accounts, manage group memberships and email distribution lists – with full audit trail. www.omni-ts.com/messaging.html
